REVOLUTION OF THE MIND

artist: KiNo

NEW CONCEPT SINGLE

Poet of Sound & Image KiNo upcoming KiNoWork Youth;

Youth is composed of:

an original single,
a mash up of 5 classic youth anthems
a spoken and visualised manifesto

In this project, Poet of Sound & Image KiNo aims to challenge the embedded conventional understanding of youth as a teen-age period (13-24).

KiNo redefines 'youth' as the omnipresent energy, spirit, fervour, the irreverent will peopling the ability to change, innovate, revise and revolt against the order of current things in dominance.

Following from this basic idea, KiNo proposes that anything created by 'youth' is for 'youth' and owned by 'youth', even though its nemesis has claim of ownership which in reality is again suspended and bypassed by the contemporary tools used by youth.

The single Youth is produced by Jeff Blenkinsopp & KiNo.
A KiNoWork always consists of the same text written in images, sounds and words.
With the release of this project all KiNoWorks will be free for children and youth.
